Summary

Passionate IT graduate from the computer and science college at King Saud University. Excellent problem-solving skills and ability to perform well in a team. Seeking to improve practical skills and gain new experience.

Experience

Full stack web developer, King Fahad Medical City

May 2021 – Aug 2021

Worked as a co-op trainee in the above position.

Achievement:

- Responsible for gathering requirements, defining scope, and work breakdown schedule.
- Developing C# and JavaScript web apps.
- Design and establish a user-friendly website for tourists.

Professional Training

Penetration Testing, Incident Response, and Forensics

By IBM through coursera.org

Digital Forensics and Cyber-Crime Investigation

Through udemy.com

Projects

Khatti, Graduation project

An iOS application based on iPad to teach, train, and evaluate the trainee's handwriting skills in four famous Arabic scripts (Naskh, Ruqa'a, Diwani, and Thuluth). Implements this technology by Deep similarity learning (analyze two images) to get the score of handwriting skill.

KSU Investigators, Cybercrime and Digital forensics

Creating a report using forensic tools to analyze the hard drive and emails of a crime suspect.

Learn with us, Web applications Engineering course project

A website learning to teach letters, numbers, and colors for kids.
